FARMINGTON

Financial Aid Policy for Summer Programs

- Strives to meet as much of legitimate, demonstrated need in an environment of limited financial resources.
- Completed with the understanding that the primary responsibility of financing private summer programs lies with the family.
- Parents are expected to complete the Parents Financial Statement (PFS), submit copies of their 2008 W-2s, and 2008 Income Tax Return form 1040 with all attached schedules.
- If parents file a separate Subchapter S, Partnership or Corporate return, please include that return, in its entirety, with your financial aid applications.
- Applications will be reviewed on the basis of their arrival and files will not be calculated unless the application is complete including all necessary supporting forms. We anticipate that the limited aid available will be committed by April, 2009.
